**MITIGATION** Please describe any necessary mitigation measures under consideration for impacts exceeding negligible (consider alternative design or trail route system; screening users from wildlife area, protection of critical habitat, channeling use through less sensitive habitat areas; re-vegetation of disturbed areas and control of invasive species; management of users and related activities with signs, fencing, and education programs; consideration of runoff when selecting project materials, such as uncured concrete to encourage seepage; comprehensive storm water runoff plan).

**BENEFIT** Please describe any anticipated positive impacts on wildlife and/or sensitive species (consider habitat improvement such as restoration of native habitat, wetlands restoration, erosion reduction, sediment reduction, river corridor clean-up, or plantings with a diversity of species and plant types for habitat restoration, and the reduction or elimination of non-native plant species; education of users through environmental education programs, opportunities for “watchable wildlife,” and wildlife impact monitoring).

**ENVIRONMENTAL COMPLIANCE** The applicant is responsible for adhering to all applicable environmental compliance regulations including, but not limited to Migratory Bird Treaty Act; concurrence with US Fish and Wildlife Service if any federally listed species of concern exist in project area; Clean Water Act section 404; US Army Corps of Engineers 404 permits; raptor buffer guidelines and incorporation of CPW recommended wildlife best management practices; CO Senate Bill 40 (33-5-101-107, CRS 1973 as amended); Colorado Historical, Prehistoric and Archeological Resources Act.
