

WILDLIFE REVIEW

The applicant is responsible for addressing any environmental impacts associated with the project, including securing all necessary permits, licenses, clearances, and environmental analysis necessary to comply with local, state, or federal law.

Applicant				
Name:	Email:			
Title:	Phone:			
Please consult with your local Colorado Parks & Wildlife (CPW) District or Area Manager to complete the table below and associated narrative questions as appropriate.				
CPW Representative				
Name:	Email:			
Title:	Phone:			
☐ CPW representative, check this box if no significant environmental considerations exist and skip the remainder of the form.				

Environmental Considerations	Not Applicable	Negligible Impacts	Minor Impacts	Significant Impacts	Insufficient Information			
Plant/animal species of special concern; state/federal listed or proposed listed								
Unique or important habitat (i.e. migration, winter-range, reproductive considerations)								
Unique or important aquatic habitat (i.e. fish passage, spawning habitat)								
Water quality/quantity – surface and ground water considerations								
Stream flow characteristics								
River corridors/lakes/ponds/ seasonal water ways								
Wetlands/floodplains								
Storm water runoff								
Sedimentation								
Disturbances to neighboring properties								
Soil/erosion								
Introduction or promotion of non-native species								
Environmental disturbances during construction								
MITIGATION Please describe any necessary mitigation measures under consideration for impacts exceeding negligible (consider alternative design or trail route system; screening users from wildlife area, protection of critical habitat, channeling use through less sensitive habitat areas; re-vegetation of disturbed areas and control of invasive species; management of users and related activities with signs, fencing, and education programs; consideration of runoff when selecting project materials, such as uncured concrete to encourage seepage; comprehensive storm water runoff plan).								

BENEFIT Please describe any anticipated positive impacts on wildlife and/or sensitive species (consider habitat improvement such as restoration of native habitat, wetlands restoration, erosion reduction, sediment reduction, river corridor clean-up, or plantings with a diversity of species and plant types for habitat restoration, and the reduction or elimination of non-native plant species; education of users through environmental education programs, opportunities for "watchable wildlife," and wildlife impact monitoring).
, <u>, , , , , , , , , , , , , , , , , , </u>
ENVIRONMENTAL COMPLIANCE The applicant is responsible for adhering to all applicable environmental compliance regulations including, but not limited to Migratory Bird Treaty Act; concurrence with US Fish and Wildlife Service if any federally listed species of concern exist in project area; Clean Water Act section 404; US Army Corps of Engineers 404 permits; raptor buffer guidelines and incorporation of CPW recommended wildlife best management practices; CO Senate Bill 40 (33-5-101-107, CRS 1973 as amended); Colorado Historical, Prehistoric and Archeological Resources Act.
